Bushfire Management Overlay

Pyrenees
Shire Council

The purpose of this information sheet is to assist applicants in preparing a planning permit application for the construction of a dwelling and/or outbuilding in the Bushfire Management Overlay (BMO). The BMO applies to land that may be significantly affected by a bushfire.

The BMO triggers the need for a planning permit for certain developments and requires new developments to include appropriate bushfire protection measures. The planning system has an important role in the creation of more bushfire resilient communities. Through the BMO (Clause 44.06) and Bushfire Planning (Clause 53.02) development in areas that are affected by a significant bushfire hazard are assessed to ensure the risk from bushfire is reduced to an acceptable level.

The following information is required when lodging a planning permit application for a dwelling and/or outbuilding in the BMO:
